WORK EXPERIENCE

Software Engineer | Parallel Learning Pvt. Ltd.

May 2025 - Present | Pune, India

Full-Stack LMS & Audience Response System

- Built Admin & Employee portals for 10 enterprise clients (Schaeffler, Mahindra, Haeman, Thyssenkrupp) using Node.js, Express.js, React.js, MySQL; supports 100+ concurrent users.
- Designed complete DB schema, ER model, and REST API architecture before development; delivered in Agile sprints, reducing rework by ~40%.
- Implemented RBAC, course management, grading, employee tracking, real-time quiz scoring, and work passport PDF generation.
- Deployed on AWS EC2 with CI/CD pipeline via GitHub Actions.

AI Integration & XR Simulation

- Automated factory-data reporting using Claude API agentic workflows, saving ~5 hrs/week of manual effort.
- Designed and developed a 2-level Unity VR safety training app using C# and Unity XR Toolkit; managed Blender-to-Unity asset pipeline, cutting integration time by 30%.

Web Developer Intern | Softgenio Technology

Mar 2025 - May 2025 | Pune, India

- Built responsive production websites (HTML5, CSS3, WordPress); delivered live conference site on deadline with zero post-launch critical bugs.
- Performed manual testing, functional validation, and cross-browser QA before every client delivery.

ACADEMIC PROJECTS

Student Management System

Java Swing + JDBC + MySQL — Full CRUD app: admissions, marks, profiles, record deletion; normalized DB schema.

3D Wall Clock

TypeScript + Three.js + WebGL — Real-time 3D analog clock with 60fps render loop and trigonometric transforms.

C++ Quiz System

C++ Console — MCQ engine with dynamic question refresh, randomized options, and instant scoring; strong OOP & DSA.
